

Dear CML Shareholders and Interested Investors

Here's to 2022 being a more rewarding year for all of us given the Company's exposure to three separate highly prospective groups of Queensland prospects through our deals with Red Fox Resources, Prophet Resources and Auburn Resources. Drilling programmes are scheduled for all these in the early New Year resulting in constant ASX updates.

Thank you for your patience and ongoing support!

Stay safe and healthy.

Kind regards from the CML Team.
