UPDATE ON MIDRIM AND LAFORCE

Meteoric Resources NL (ASX: MEI; “Meteoric” or the “Company”), has been advised by TopTung Limited (ASX:TTW) that it will not be completing the acquisition of Midrim and LaForce. TTW has advised that this is a result of present market conditions and a decision to focus on evaluating their current Canadian portfolio, and not on the prospectivity of Midrim and LaForce.

Whilst disappointed, Meteoric remains fully funded with in excess of \$2,000,000 in cash net of liabilities enabling it to pursue exploration of its highly prospective Cobalt portfolio as well as other investment opportunities.

Drilling at the Joyce copper cobalt gold Project is scheduled to commence shortly targeting shallow EM targets immediately beneath outcropping massive sulphides. In addition, the Company is currently assessing a number of Gold projects and shall keep shareholders updated in this regard.
